

# Automatic Corn Flakes Processing Machine will be shipped to Indian

Automatic Corn Flakes Processing Machine will be shipped to Indian by Shandong Loyal Industrial Co.,Ltd. , we provide latest information about the products regularly.

I have an old Indian customer who had already purchased a biscuit production line from loayl the year before last. He is very satisfied with our machines and after-sales service. He wants to expand his marketing scale this year and start a corn flakes production project. So he found us again. He expressed his trust in our machine. Through general communication and introduction, he soon made a second deal with us, and finally placed an order for a 500kg/h automatic corn flakes processing machine.

This Indian customer is a food processing factory. Since it has cooperated with a corn flakes brand this year, it is necessary to build a new factory. Since the Indian customer is a processing factory, when making corn flakes, the raw materials and recipes are all provided by the brand. Fang specified, so he sent me the ingredient list of the brand side. I said that our machine can be equipped with this kind of material, and Indian customers expressed their confidence.

Formula Of Automatic Corn Flakes Processing Machine	
Ingredient	Proportion
Corn Flour:	26.6%
Sugar:	10%

Butter:	5%
Water:	25%
Barley Extract:	3%
Baking Soda:	10%
Milk :	15%
Starch:	10.4%

Corn Flakes Manufacturing Process Flow Chart	
Mixer ? Screw Conveyor ? Twin Screw Extruder ? Air Conveyor ? Tablet Press ? Air Conveyor ? Dryer	
? Elevator ? Hot Air Baking Machine ? Seasoning Machine ? Dryer ? Cooling Machine ? Packaging Machine	
Mixer	Premix Grains, Minerals And Vitamins, Salt, Milk Powder, Emulsifiers Are Fed, Mixed And Conveyed In A Preconditioner Which Hydrates And Heats The Mixture To Start The Gelatinization.
Twin Screw Extruder	The Partially Cooked Product Is Introduced Into The Twin-Screw Extruder. The Corotating Screws Mix The Pre-Moistened Powders With A Malt Syrup, Injected Directly Into The Extruder ; The Heat Generated By Viscous Dissipation And The Controlled Shear Generated By The Screws Geometry Provide The Required Thermo-Mechanical Treatment To The Preparation. An Advanced Cooling System Precisely Adjusts The Temperature In Each Barrel Module. The Homogeneous, Pasty And Cooked Product Is Pushed Throughout The Die Which Forms Continuous Unexpanded Strands.
Tablet Press	After A Short Cooling Period, The Products Are Tempered, Cut And Flaked Using A Flaking Device Consisting Of Two Thermo-Regulated And Counter-Rotating Cylinders.
Hot Air Baking Machine ? Seasoning Machine ? Dryer	They Are Then Transferred To A Dryer / Toaster And Cooled Before Being Stored And Packed. An Additional Coating Operation May Be Applied To Add,- For Example, A Sweet Syrup, Before Drying And Cooling.

After referring to the ingredient list, I also provided some process and process drawings about the machine, and introduced their functions respectively. He said that when he used our oven before, he found our company's unique design for the oven, and felt that our home The quality

of the oven is very good compared to other brands.

Corn Flakes Machine Capacity Available		
Model Parameter	LY70 corn flakes machines/processing line	LY85 corn flakes machines
Installed capacity	166KVA	263KVA
Power	110Kw	200Kw
Output	120-150kg/h	240-320kg/h
Dimension	45x3x4m	48.5x5x4m

In recent years, India has shown a growth model for imported mechanical and electrical machinery, and strives to implement the policy of opening to the outside world, encourage foreign investment, actively improve the investment environment, and increase investment policies. In terms of mechanical and electrical products, China is a major import and export country of mechanical and electrical products, and has certain technological advantages over India. Therefore, India imports more mechanical and electrical products from China. It is profitable for Indian clients to start this industry.

But the Indian customer was still worried that the product he made did not match the brand, so we produced it in our factory according to the ingredient list he provided, and we promised to provide him with free samples. He expressed his willingness to see the samples first, and a few days later , he received the sample and found that it was no different from the one provided by the brand, which made him not worried.

Our service Of 500kg/h Corn Flakes Machine
