

1000kg/h Butterfly Pea Industrial Microwave Oven Will Be Sent To Thailand

1000kg/h Butterfly Pea Industrial Microwave Oven Will Be Sent To Thailand by Shandong Loyal Industrial Co.,Ltd. , we provide latest information about the products regularly.

The inquiry about the industrial microwave oven customer is Kitisak who come from Thailand.

Kitisak is a agent of the trader company. Last year he helped his client buy a fish feed production line from our company. This time he is also help his Thailand customer to buy a industrial microwave oven for the butterfly pea.

(Industrial Microwave Oven)

Butterfly pea flower is a natural food coloring agent. Some pastries in Thailand, Singapore, and Malaysia are blue, and they are dyed with the pigment of butterfly pea flower. Butterfly pea

flower can also be used to make tea. Butterfly pea flower has the effect of anti-oxidation, enhancing brain power, hair care, and improving resistance.

(Butterfly Pea)

After communicating with the Thailand customer Kitisak about the use and specific details of the dried butterfly pea, we recommended the industrial microwave oven to the customer.

The advantages of Industrial Tunnel Continuous Microwave Dryer	
1	Continue dry model?convenient with high capacity.
2	Microwave penetrates through the material and affect it from inside and outside at the same time, resulting in rapid drying speed, short drying time, uniform heating and good product quality.
3	Thermal effect and non-thermal effect works together for sterilization, which is quick and of low temperature. The flavor and nutritional components of material are retained to the maximum.
4	Microwave works directly on the food, there is almost no other heat loss, it is of high thermal efficiency and saves 1/3 energy comparing with far-infrared heating.
5	Small land occupation, saving labor. No heat radiation, the working conditions are greatly improved.
6	Immediate heating and stop by adjusting the microwave power, no thermal inertia, easy to control, convenient for automatic and continuous production.
7	The microwave dryer technology can maintain the original color and nutrients to the greatest extent.

N. a period discussion with industrial microwave oven customer Kitisak, Customer more care about the machine capacity and specific machine details, then finally customer confirm the 1000kg/h butterfly pea industrial microwave oven.
