Rose Flower Microwave Flower Drying Machine for sale in Australia

Rose Flower Microwave Flower Drying Machine for sale in Australia by Shandong Loyal Industrial Co.,Ltd., we provide latest information about the products regularly.

In June last year, received an Rose Flower Microwave Flower Drying Machine enquiry in the mail, a customer from Australia, he told me that he contacted us when he was visiting our exhibition, he thought our machine was very good, and it happened that he was also looking for A good machine manufacturer, the safety is very good compared to other manufacturers, he added our contact information and wanted to know about our machines.

Through communication, he wanted a rose microwave dryer and a high-yield one, so I recommended a 1000kg/h dryer to him. After half a month of communication, he finally placed an order for a 1000kg/h rose dryer.

The Australian customer currently owns a large factory. He wants to expand his industry and buy more machines. After many comparisons, he saw our Rose Flower Microwave Flower Drying Machine at the exhibition. feel that our machines can be trusted.

As a relatively common ornamental flower, roses are not only ornamental, but also play a role in use. The role of roses is gradually expanding. Dried roses can be used to make tea and have the effect of beauty.

Later, I introduced the function and product list of our Rose Flower Microwave Flower Drying Machine in detail to the customer. Since the customer has seen our machine at the exhibition, the customer trusts the machine very much. I took the customer video to see our factory. Australian customers are very satisfied with our factory.
