

Pet Fair Asia 2020

Recently, Shandong Loyal Industrial Co., Ltd. was invited to participate in the Pet Fair Asia 2020 held in Shanghai, and conducted a study and discussion on the pet food production line.

The following is a brief review of this exhibition:

Exhibition Introduction

The only industry exhibition in the Asian pet industry that has passed the UFI professional certification of the Global Exhibition Industry Association-UFI is by far the most important international organization in the world exhibition industry. Authoritative certification of international exhibitions is the core task of UFI. The UFI-approved exhibition is also a sign of high-quality trade fairs. As one of the most influential platforms in the global pet industry, since its establishment in 1997, Pet Fair Asia has become a must-see for the pet industry following the rapid development of China's pet industry after 17 years of experience. The annual gathering platform, recognized by the industry as the flagship Asian pet exhibition.

Exhibition Range

Pet food: staple food, snacks, food additives, food processing machinery, food packaging technology, etc.

The Pet Fair Asia is an annual pet event. We were invited to participate in the 23rd Asia Pet Exhibition Shandong Loyal Industrial Co., Ltd, and came here with full sincerity. Shandong Loyal Industrial Co., Ltd pet food making machine has always been the best-selling nutritious dietary food series and ideal protein food series. This time, Shandong Loyal Industrial Co., Ltd .has brought new products that are expected: chewing nutritious dietary machinery and full-price air-dried pet food process making machine.

In more than half of 2020, my country's epidemic prevention and control has also become normal, and major world-class exhibitions have also been carried out normally. Among them, the largest and most influential Asian pet exhibition in the Asia-Pacific region is a pet paradise for everyone who loves pets. There are a dazzling array of pet brands, and the major brand pet food machinery trade show is also eye-opening.

Speaking of the Asia Pet Show, what would you go to see?

Is it finely divided cat food and dog food with complete ingredients?

Is it an intimately designed and versatile pet food machine?

Or care for cute pets, convenient and practical pet supplies?

.....

From August 19th to 23rd, as the world's leading pet food equipment and engineering service provider-LOYAL INDUSTRIAL CO,LTD, specially brought the industry's first pet food machinery and equipment with great metallic texture and super high value!

Introduction of Pet Food Production Line

This Production Line Can processing feed food for dog / cat / fish feed pellet / bird / animals/ Poultry / Livestock feed pellet etc

It can make kinds of fish feed, such as food fish, catfish, shrimps, crab, etc. The fish pellet made by the cat food extruder can float on water more than 24 hours. Gelatinization degree can reach 90%, enhance the output of fodders, it is suitable for making floating feed, pet food, fish fodder. The diameter of particle is 0.6-16mm. Promising fodder output evenly and continuously.

Parameter:

ITEM	LY56-III	LY70-II	LY85-II	LY32-II(Laboratory or school teaching)
Power voltage	we can make it according to customers' Local voltage according to different countries. Free charge			
Installed power	35KW	46KW	90KW	10KW
Actual power	25KW	30KW	55KW	7KW
consumption power	120-150Kg/h	200-260Kg/h	300-500Kg/h	10-15Kg/h
size	2.5x0.8x1.8m	3.2x1.0x2m	4.5x1.2x2.4m	21x0.65x1.6m
Stainless steel thickness	1.2mm			
The pet food making machine is composed of feeding system, extrusion system, rotary cutting system, heating system, transmission system and control system. Adopt advanced screw extrusion technology, use high temperature and high pressure to mature and expand the material, complete at one time. The main engine adopts frequency conversion speed regulation to ensure the stability of the production process. The products are colorful, diverse in variety, beautiful in appearance, natural and lifelike, delicate in texture and widely used in raw materials.
