What Does The Nut Fryer Making Machine Do

As the professional peanuts and green peas frying line manufacturer/supplier ,our nuts gas fryer making machine design good manufacturing process. Peanuts and nut frying device can fried french fires for sale.

1.Automatic Temperature Control Peanuts Gas Deep Fryer Product Description

The automatic continuous deep fryer, widely used for frying and processing all kinds of potato chips, banana chips, meat products, root vegetable, seafood, nuts food, snack food, as well as cooked wheaten food tempura,hamburger ,tempuras,chicken nuggets, twisted cruller ,churros,dough twist,battered meat,breading meat, semi-floating foods, meat pies, fish etc.

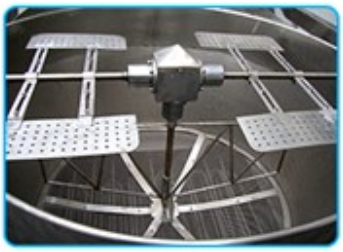
2.Parameter Of Nuts Fryer

Nut Frying Equipment Model	Power	Heating Temperature	Output	Size (L*W*H)
FMS-300	4.3KW	~250?	100-300kg/h	13000x1200x3000 mm
FMS-400	4.3KW	~250?	300-500kg/h	163000x1200x3000mm
FMS-500	4.9KW	~250?	500-800kg/h	25100x1300x4000 mm
FMS-650	6.85KW	~250?	800-1000kg/h	28000x1300x4000 mm
FMS-800	10KW	~250?	1000-1300kg/h	31000x1300x4000 mm

3.Feature Of Peanut And Beans Industrial Deep Frying Machine

1	Full Automatic continuous fryer making machine consists of net belt conveying system, automatic elevating system, automatic filtrating system, oil temperature controlling system, oil

	adding system and heating system.
2	Full Automatic continuous fryer making machine the snack pellet, potato chips, yams, taros, peanuts, fish, dough snacks, green peas, fava beans, broad beans.
3	Full Automatic continuous fryer making machine can use heat--conducting oil with high temperature as heat resource,avoiding the damage to oil by directly heating.Meanwhile ,the energy can be many kinds of fuel such as electrical,gas,diesel oil,etc.
4	Full Automatic continuous fryer making machine application range is very wide.the oil capacity of the frying machine is low,the oil velocity is high,and the oil is filtered during cycling,and kept clean.Industrial automatic batch fryer machine is special frying machine for pulse and nut.

4.Industrial Deep Frying Line Materials


All the machines are made by stainless steel.
