

How Can I Start Instant Noodles Business?

The main raw materials of the instant noodle food industry are wheat, flour and palm oil. At the same time, related upstream industries include grain. At the same time, oil production and flour processing industry. And then, the fluctuation of the prices of wheat and palm oil in the upstream.

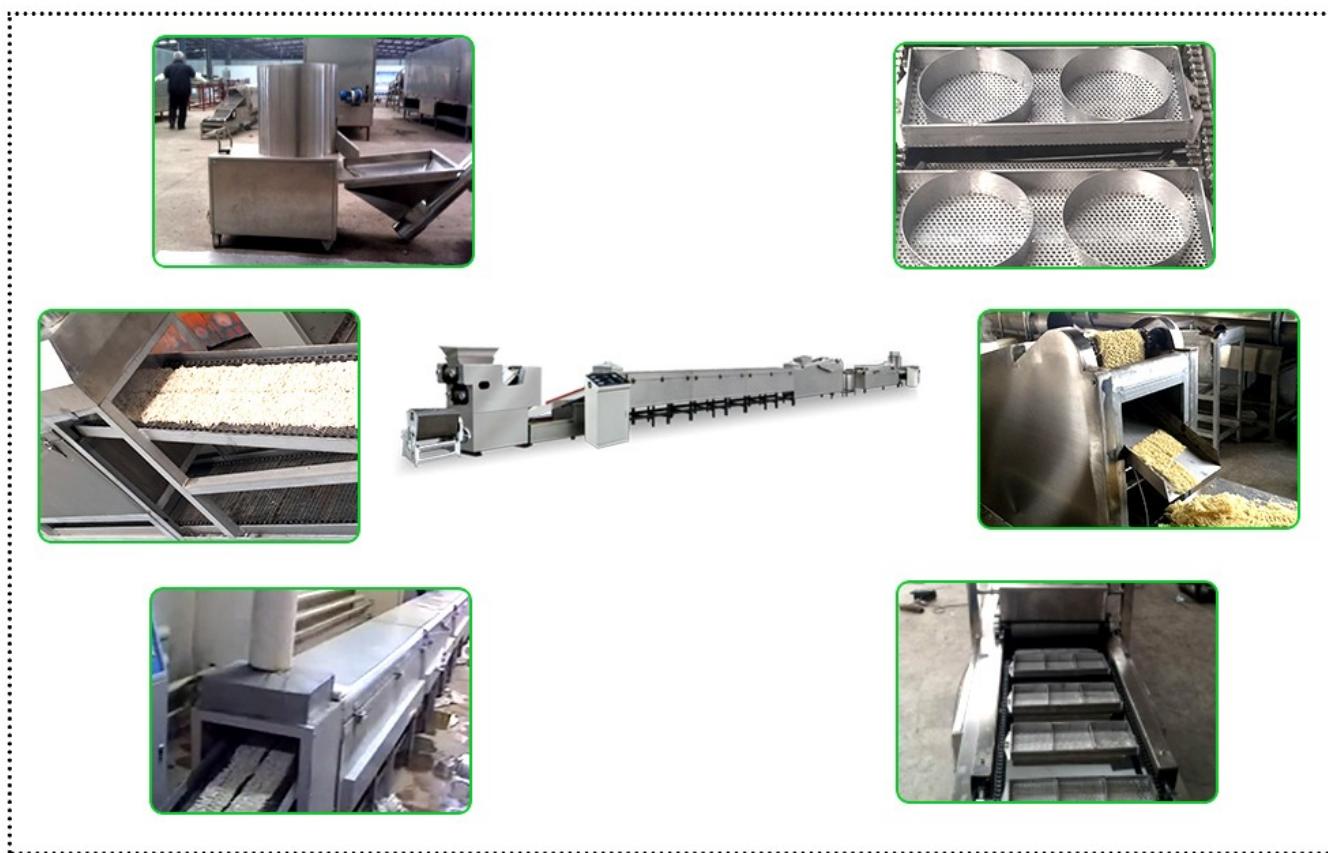

The main raw materials of the instant noodle food industry are wheat, flour and palm oil. At the same time, related upstream industries include grain. At the same time, oil production and flour processing industry. And then, the fluctuation of the prices of wheat and palm oil in the upstream. At the same time, the development has an impact on the instant noodle food industry. At the same time, the upstream industry develops steadily and healthily. And then, it is sample supply of wheat, flour and palm oil. At the same time, ensure the stability of the raw materials required of the instant noodle industry. At the same time, vigorous development of high-quality wheat, special flour and high-quality palm oil in the upstream industry.

The progress has accelerated the improvement of the quality of instant noodles. At the same time, it favorably promoted the rapid development of high-end products in the instant noodle industry. At the same time, there are three types of instant noodles according to the process. Such as: fried instant noodles, non-fried instant noodles and wet instant noodles. According to

the packaging, it is divided into barrels, cups and bags.

In recent years, as downstream distributors have matured. The downstream sales channels of instant noodles. At the same time, they gradually occupy a strong position in the entire industry chain. As a result, the sales expenses of instant noodle manufacturers have increased significantly. At the same time, the profit margins of it have been squeezed. And then, for instant noodle manufacturers. And then, they have formed a brand first-mover advantage. At the same time, the downstream distributors have matured. At the same time, it also expanded the brand influence of instant noodle manufacturers. And then, this enables instant noodle manufacturers to have strong bargaining power with distributors. At the same time, in a strong position. At the same time, this ensures that branded instant noodle companies have greater profit margins.

The last is the choice of instant noodle machines

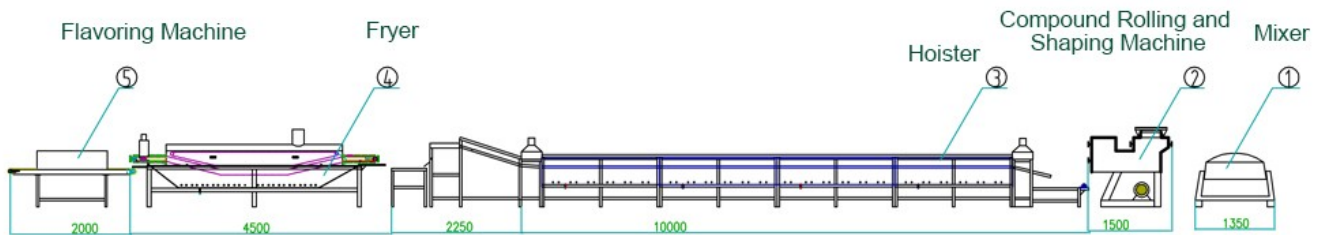

Shandong Loyal is a professional manufacturer of small instant noodle making machines. At the same time, our instant noodle making machine is designed with a good instant noodle manufacturing process. And then, the instant noodle machine makes of wheat flour, water, salt, grain flour and vegetable juice. At the same time, no need to fry instant noodles.

At the same time, the sales of instant noodles worldwide are increasing year by year. And then, especially during the 2020 epidemic. Instant noodles are easy to eat. At the same time, it is easy to long-term storage. And then, it is rich in flavor. At the same time, we specialize in producing small instant noodle making machines. At the same time, it designs and provides equipment with different production rates. And then, it includes fried and non-fried instant

noodle production lines. At the same time, our instant noodle making machine can produce cup noodles and bagged noodles. And then, it is to meet the different needs of customers. At the same time, we also provide customers with seasoning solutions. At the same time, it also has novel design and reliable performance.

Instant Noodles Manufacturing Process

Flour Mixing - Compounding - Boiling - Cutting And Bending - Frying - Cooling - Packaging

Advantages Of Automatic Instant Noodle Machine

1.	The size and shape of instant noodles can be adjusted easily.
2	Stainless steel material.
3	Noodles shaping roller, noodles boiling machine ,noodles frying machinery adopt the frequency control,the speed can be adjust according to different noodles.
4	Easy operation ,3-4 workers enough
5	Compact structure ,Small footprint
6	Indomie noodle can be packed in bag or cup for sales.
