

# Plant Machinery Instant Noodle Production Line

## 1. Description Of Plant Machinery Instant Noodle Production Line

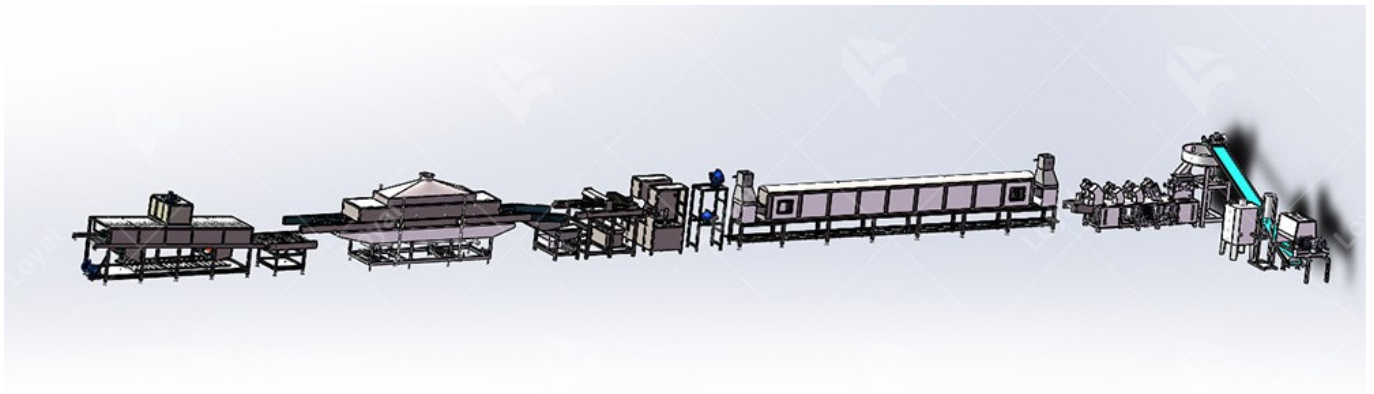

LOYAL series of deep-fried instant noodle production line, advanced technology, high capacity, low consumption, high degree of automation, from maturation to cooling process are using touch screen process parameters preset, photoelectric tracking, frequency conversion speed control, PLC program control, to achieve a single machine fine-tuning, the whole line linkage, synchronous lifting speed program control.

The equipment and food contact surface are made of stainless steel and food grade materials, which meet the requirements of food hygiene standards. The product has the characteristics of fragrant, crispy and crispy, and the noodles are smooth and sinewy.

## 2. Production Line Components Of Plant Machinery Instant Noodle Production Line

Instant noodle production line consists of alkaline water mixing tank, —brine meter, —mixer?noodle mixing machine?, —discmaturing machine, —roll forming machine, —steam machine, —square noodle cutting machine, —round noodle cutting machine, —round noodle forming machine, —noodle box changer for round noodle, — frying machine, —oil tank, finishing machine, —cooling machine, —conveyor and packing machine.

### 3. Technical Parameter Of Plant Machinery Instant Noodle Production Line

Different Model Of Instant Noodle Machine For Sale				
Model	Output	Power	Steam Consumption	Size
LY-1	11,000PCS/8H	30kw	800-1000KG/H	L35m*W5m*H2.5m
LY-2	30,000PCS/8H	42 kw	1000-1200KG/H	L45m*W5m*H2.5m
LY-3	80,000PCS/8H	68 kw	1300-1500KG/H	L56m*W5m*H2.5m
LY-4	120,000PCS/8H	83 kw	1600-1800KG/H	L60m*W6m*H3m
LY-5	200,000PCS/8H	114 kw	2000-2200KG/H	L90m*W6m*H3m

#### 4. Specification Of Plant Machinery Instant Noodle Production Line

item	value
Applicable Industries	Food & Beverage Factory, Restaurant, Retail, Food Shop, Food & Beverage Shops
Showroom Location	None
Condition	New
Type	Instant noodle production line
Place of Origin	China
	Shandong
Brand Name	Loyal
Voltage	220 V
Power	120 kw
Dimension(L*W*H)	40*5*5 m
Weight	2000KG
Warranty	1 Year
Marketing Type	New Product 2023
Machinery Test Report	Provided
Video outgoing-inspection	Provided
Warranty of core components	1 Year
Core Components	Motor
Key Selling Points	Automatic
Product name	Large-capacity instant noodle Production line
MOQ	1set

Capacity	30000 pcs/8 hours
Application	instant noodle
Keywords	Large-capacity
Processing Types	fully automatic
Material	Stainless Stell
Raw material	Flour
Function	instant noodle making
Energy	Electricity /Gas/Steam

### 5.Applications Of Automatic Fried Instant Noodle Production Line

The industrial fried instant noodle production line can produce square or round instant noodles by changing the mold and production process. The fried instant noodle equipment produced by our company has stable performance, compact structure, simple operation, and realizes one-time fully automated production without too much labor, high degree of automation and simple operation. Our commercial instant noodle production machine can provide users with molds and processing formulas, which are well received by customers. The fully automatic fried instant noodle production machine has the characteristics of low investment and quick results.
